

VEZZRA

WEB EARNING & MINING APP

Presented By - Sanjeev Singh Bagga

Blockchain Technology Explained

Blockchain offers a **secure and transparent** method for digital transactions, revolutionizing how we exchange value online.

Earning App Challenges

Earning apps often frustrate users with:

- » Excessive Ads
- » Limited Withdrawal Option
- » Long Earning
- » Limited Ways to Earn
- » Low Payouts
- » No Mining
- » No Video-to-Earn platform
- » No Tournament/Tasks / etc

These issues, combined with lack of transparency, make it difficult for users to earn a fair return on their time & efforts.

Our Solution

Our solution has shaped our platform over the Past 10 years

- **Standardized** Tools
- **42** Windows / Windows Server
- **2** years of **Black** Windows to learn
- **Maximum** Password start from **11k** / **10.22**
- We are integrating 2 Mining pools:
Greenfield mining for a better job, Crypto Mining
- Integrating **White** to **Black**
- **Individual** **Financial** **Performance** **By**

all these conditions will give you a good idea
what we all want to do, all these are done

WEB3 Payment Gateway

We're making what used to be a hassle:

Users get a payment card, just like the old **bit pay**, to spend their earned Cryptos or Tokens anywhere in the **World** with a simple **tap-to-pay**. It's **Fast**, **Easy**, and **totally transparent**.

Gaming Revolution

01 Global Crypto Game Tournament

Allowing gamers to participate in Global
Crypto Tournament and win big.

02 Play-to-Earn Opportunities

Seed Funding Round

\$500 Dollars

In our seed funding round we raised \$5000 from family & friends.

We used this money to bootstrap the Instagram community and we gained 1.1k followers by spending \$1000, and the remaining we used in Beta Development phase.

Beta Phase Result

During the Beta Phase Development we spend \$1500 to Research & App Development and in this testing we now have 10000 DMs for 1 Week & the Conversion Rate/Revenue is of 3%.
